Total Cost Profile by HCPCS Code
(PROCSUM)

CPEP:	The Clinical Practice Expert Panel (abbreviated CPEP) that provided the estimates for the associated service.
PROCCODE:	The HCFA Common Procedure Coding System (HCPCS) Code for the specified service.
FAM:	The grouping ("family") of HCPCS codes to which the service was assigned for the purpose of facilitating development of resource estimates by the CPEPs.
ISREF:	For the specified service, this variable indicates whether the service was a reference service (profiled during the first round of CPEP meetings).
POVIS:	Indicates the number of post-operative office visits profiled by the CPEP.
IN:	For the specified service, this variable indicates whether the service was profiled for the "in-office" location.
OUT:	For the specified service, this variable indicates whether the service was profiled for the "out-office" location.
TOTLABCI:	Total clinical labor cost for the in-office location (the computed sum of CG0_I + CG1_I + CG1X_I).
TOTLABAI:	Total administrative labor cost for the in-office location (the computed sum of CG2_I + CG2X_I).
TOTLABI:	Total labor cost for the in-office location (the computed sum of TOTLABAI + TOTLABCI).
SUPP_I:	The costs of all supplies, in dollars, associated with the provision of the service in the in-office setting.
PXEQ_I:	The allocated cost, in dollars, of all service-specific equipment assigned by the CPEP with the provision of this service in the office.
OVEQ_I:	The allocated overhead clinical equipment cost associated with the provision of this service in the office.
TOTEQPI:	Total cost for clinical equipment in the in-office location (the computed sum of PXEQ_I + OVEQ_I).
TOT_I:	Total direct costs for the in-office location (the computed sum of TOTLABI +SUPP_I + TOTEQPI).
TOTLABCO:	Total clinical labor cost for the out-office location (the computed sum of CG0_O + CG1_O + CG1X_O).

TOTLABAO: Total administrative labor cost for the out-office location (the computed sum of CG2_O + CG2X_O).

TOTLABO: Total labor cost for the out-office location (the computed sum of TOTLABAO + TOTLABCO).

SUPP_O: The costs of all supplies, in dollars, associated with the provision of the service in the out-of-office setting.

PXEQ_O: The allocated cost, in dollars, of all service-specific equipment assigned by the CPEP with the provision of this service out of the office.

OVEQ_O: The allocated clinical overhead equipment cost associated with the provision of this service out of the office.

TOTEQPO: Total cost for clinical equipment in the out-office location (the computed sum of PXEQ_O + OVEQ_O).

TOT_O: Total direct costs for the out-office location (the computed sum of TOTLABO +SUPP_O + TOTEQPO).

Equipment Profile

Overhead Clinical

Labor Profile by HCPCS Code
(LABDET)

CPEP: The Clinical Practice Expert Panel (abbreviated CPEP) that provided the estimates for the associated service.

FAM: The grouping ("family") of HCPCS codes to which the service was assigned for the purpose of facilitating development of resource estimates by the CPEPs.

PROCCODE: The HCFA Common Procedure Coding System (HCPCS) Code for the specified service.

ISREF: For the specified service, this variable indicates whether the service was a reference service (profiled during the first round of CPEP meetings).

STAFTYPE: Numeric Code for staff type, assigned by Abt Associates Inc.

DESC: Description of the staff type.

RATE: For the specified staff type, this variable is the estimated rate of total compensation, expressed in dollars per minute.

IN: For the specified service, this variable indicates whether the service was profiled for the "in-office" location.

OUT: For the specified service, this variable indicates whether the service was profiled for the "out-office" location.

GO_I: Services in the G0 period occur within 24 hours before the performance of a procedure. This variable contains the minutes of clinical labor for services and/or visits provided during this 24-hour pre-procedure period of an in-office procedure for the specified staff type (see STAFTYPE variable).

G1_I: Services in the G1 period occur during the provision of the service regardless of the service's global status code.[1] This variable contains the minutes of clinical labor for the provision of the in-office service itself for the specified staff type (see STAFTYPE variable).

G1X_I: Services in the G1X period commence with the first post-procedure office visit and end with the expiration of the global period. This variable contains the minutes of clinical labor for all G1X period services and/or visits related to an in-office procedure for the specified staff type (see STAFTYPE variable).

---

[1]See the *User's Guide* for an extended discussion of the relationship between the resources included in the G1 period and the global status code.

G2_I: Services in the G2 period occur during the provision of the service itself (regardless of the service's global status) and within 24 hours before the performance of a procedure (for global status codes with a 24 hour pre-service window). This variable contains the minutes of administrative labor for services and/or visits in the G2 period related to an in-office procedure for the specified staff type (see STAFTYPE variable).

G2X_I: Services in the G2X period commence with the first post-procedure office visit and end with the expiration of the global period. This variable contains the minutes of administrative labor for all G2X period services and/or visits related to an in-office procedure for the specified staff type (see STAFTYPE variable).

G0_O: Services in the G0 period occur within 24 hours before the performance of a procedure. This variable contains the minutes of clinical labor for services and/or visits provided during this 24-hour pre-procedure period of an out-office procedure for the specified staff type (see STAFTYPE variable).

G1_O: Services in the G1 period occur during the provision of the service regardless of the service's global status code.[2] This variable contains the minutes of clinical labor for the provision of the out-office service itself for the specified staff type (see STAFTYPE variable). When the service is a procedure performed on an inpatient basis, the G1_O period includes services and visits provided by practice staff during the hospital stay.

G1X_O: Services in the G1X period commence with the first post-procedure office visit and end with the expiration of the global period. This variable contains the minutes of clinical labor for all G1X period services and/or visits related to an out-office procedure for the specified staff type (see STAFTYPE variable).

G2_O: Services in the G2 period occur during the provision of the service itself (regardless of the service's global status) and within 24 hours before the performance of a procedure (for global status codes with a 24 hour pre-service window). This variable contains the minutes of administrative labor for services and/or visits in the G2 period related to out-office procedure for the specified staff type (see STAFTYPE variable).

G2X_O: Services in the G2X period commence with the first post-procedure office visit and end with the expiration of the global period. This variable contains the minutes of administrative labor for all G2X services and/or visits related to an out-office procedure for the specified staff type (see STAFTYPE variable).

---

[2]See the *User's Guide* for an extended discussion of the relationship between the resources included in the G1 period and the global status code.

Supply Profile

Procedure Specific Clinical Equipment Profile

Overhead Clinical

Supply Profile by HCPCS Code
(SUPDET)

CPEP: The Clinical Practice Expert Panel (abbreviated CPEP) that provided the estimates for the associated service.

PROCCODE: The HCFA Common Procedure Coding System (HCPCS) Code for the specified service.

SUP_CODE: Numeric code for a unique supply item, as assigned by Abt Associates Inc.

DESC: Description of the supply item (e.g., needle 30g).

PRC_CNT: The number of units in which a supply item is priced. For example, if the price for hydrogen peroxide is recorded as $0.78 per 20 ml, the value of PRC_CNT for this supply item would be 20.

PRC_UNIT: Units in which the supply item was priced (e.g., ml, ounce, foot).

PRICE: The price for this supply item, in dollars, stated in terms of a specified quantity (PRC_CNT) of a specified unit (PRC_UNIT) (e.g., the PRICE of hydrogen peroxide is stated as $0.78 per 20 ml).

INQCNV: For in-office provision of the service, the quantity of the associated supply item required, expressed in standardized units (i.e., not necessarily the units in which the CPEP provided the original estimates).

IN_COST: Total cost of the quantity of this item required for the service, in dollars.

OUTQCNV: For out-office provision of the service, the quantity of the associated supply item required, expressed in standardized units (i.e., not necessarily the units in which the CPEP provided the original estimates).

OUT_COST: Total cost of the quantity of this item required for the service in dollars.

Procedure Specific Clinical Equipment Profile

Overhead Clinical

Procedure-Specific Clinical Equipment Profile by HCPCS Code
(PXEQCAP)

CPEP:	The Clinical Practice Expert Panel (abbreviated CPEP) that provided the estimates for the associated service.
PROCCODE:	The HCFA Common Procedure Coding System (HCPCS) Code for the specified service.
EQP_CODE:	Alphanumeric code for a unique type of equipment, as assigned by Abt Associates Inc.
DESC:	Description of the clinical equipment $500 or more.
PRICE:	The purchase price of the equipment.
LIFE:	The estimated useful life of the equipment, in years.
INTRATE:	The interest rate used to calculate the annualized opportunity cost (CAPFRAC) of the item of equipment.
CAPFRAC:	Factor used to inflate the capital acquisition cost to reflect the cost of capital over time.
ANNFACT:	Factor to multiply by the equipment purchase price, PRICE, to obtain the total annualized cost of the equipment. This factor incorporates both the cost of capital over time (e.g., loan interest payments) and the annual maintenance cost expressed as a percentage of acquisition cost.
COST_MIN:	The estimated cost per minute of use of the equipment for the service.
IN:	For the specified service, this variable indicates whether the service was profiled for the "in-office" location.
OUT:	For the specified service, this variable indicates whether the service was profiled for the "out-office" location.
EQTI:	The estimated total number of minutes that the equipment was assumed to be used for the service when provided in the in-office setting.
PXEQ_I:	The allocated cost, in dollars, of all service-specific equipment assigned by the CPEP with the provision of this service in the office.
EQTO:	The estimated total number of minutes that the equipment was assumed to be used for the service when provided in the out-of-office setting.
PXEQ_O:	The allocated cost, in dollars, of all service-specific equipment assigned by the CPEP with the provision of this service out of the office.

Overhead Clinical Equipment Profile by HCPCS Code
(OVEQCAP)

CPEP:	The Clinical Practice Expert Panel (abbreviated CPEP) that provided the estimates for the associated service.
PROCCODE:	The HCFA Common Procedure Coding System (HCPCS) Code for the specified service.
EQP_CODE:	Alphanumeric code for a unique type of equipment, as assigned by Abt Associates Inc.
DESC:	Description of the clinical equipment $500 or more.
PRICE:	The purchase price of the equipment.
LIFE:	The estimated useful life of the equipment, in years.
INTRATE:	The interest rate used to calculate the annualized opportunity cost (CAPFRAC) of the item of equipment.
CAPFRAC:	Factor used to inflate the capital acquisition cost to reflect the cost of capital over time.
ANNFACT:	Factor to multiply by the equipment purchase price, PRICE, to obtain the total annualized cost of the equipment. This factor incorporates both the cost of capital over time (e.g., loan interest payments) and the annual maintenance cost expressed as a percentage of acquisition cost.
COST_MIN:	The estimated cost per minute of use of the equipment for the service.
IN:	For the specified service, this variable indicates whether the service was profiled for the "in-office" location.
OUT:	For the specified service, this variable indicates whether the service was profiled for the "out-office" location.
EQTI:	The estimated total number of minutes that the equipment was assumed to be used for the service when provided in the in-office setting.
OVEQ_I:	The estimated total cost attributed to clinical overhead equipment, when performing the service in the in-office setting.
EQTO:	The estimated total number of minutes that the equipment was assumed to be used for the service when provided in the out-of-office setting.
OVEQ_O:	The estimated total cost attributed to clinical overhead equipment, when performing the service in the out-of-office setting.
